

UPDATE #12

05/09/2023

God is Still Speaking

Just a short update this week as the committee continues to move close to posting our open position and in turn, receiving ministerial profiles, resumes and statements of faith from candidates.

In preparing ourselves for the next phase of this work in which we will review potential candidate profiles and accompanying materials, we are considering:

- How might we create more room for the Holy Spirit to speak?
- What is possible?
- How might we be a blessing to our candidates?
- How are we willing to be flexible and/or surprised?
- What is the most faithful action we could undertake right now?
- In what ways do we need to exercise courage?
- What is God up to?

We begin and end each meeting with prayer (and meditation) and a reminder to ourselves to create room to hear God's message. We lean into our faith to provide support and guidance, not only for committee members, but for all of us, through this journey of transition. We feel your love and encouragement. Thank you!
